English

An integrated four-domain consulting offering virtually unique in the market.

### 01 Management Consulting

Deep accounting and finance expertise shaped by the professional ethos of a father who built his career at Peat Marwick Mitchell (now KPMG) — combined with cutting-edge AI & DX knowledge. Advisory retainer, project-based, and spot consulting available.

### 02 Data Analytics & DX

Financial data analysis, reporting automation, and operational efficiency through generative AI.

### 03 English Business Support

English-language reporting, negotiation with global firms, and cross-border documentation.

### 04 Speaking, Training & Media

Lectures, corporate training, and media appearances on accounting, data analytics, generative AI, and international business.

## PROFILE

**Mikiko Ito** 伊藤 未来子

Management Consultant

Tokyo Gakugei University Affiliated Elementary School · Waseda University · University of Tokyo Graduate School (Interfaculty Initiative in Information Studies). 2nd Dan in Kendo.

Combines specialized expertise in accounting, data analytics, generative AI, and English business, built through hands-on finance and data roles at major corporations including Volkswagen Financial Services Japan and Aderans.

Inspired by her father's decades-long career as a management consultant — including his time at Peat Marwick Mitchell (now KPMG) — she founded FAInance Lab to bring next-generation DX insight and modern communication to the world of finance.

Her mother's family has run a 150+ year-old establishment in Aoyama since 1874 (Meiji era). Her great-uncle is Professor Emeritus at Hitotsubashi University and former President of Sapporo University. Signed with a leading live-streaming talent agency. Top-10 finalist in a major fashion magazine model audition.

Founded 2025.03
